

Our meat has been marinating for 24 hours so you can be sure those spices have been given ample time to seep right through your meat and before they hit our sizzling hot chargrill.

Together the meat and spices will be dancing the zorba on that grill and once they land into your mouth it will be music to your palate.

We have your appetite covered, whether you're a meat lover, a vegetarian or vegan, you'll be struggling to choose.

# MENU
